DETAILED ACTION

Election/Restrictions

1. Applicant's election of invention of Group I in Paper No. 7 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Upon further examination, the Examiner would like to restrict the elected invention of Group I further.

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Art Unit: 1741

Group IA, claim(s) 1, 20, 21 and 23-29, drawn to a method for surface processing by plasma polymerization of a surface of a metal by using a DC discharge plasma.

Group IB, claim(s) 2-13 and 30, drawn to a method for surface processing by plasma polymerization of a surface of an insulating material by using a DC discharge plasma.

4. The inventions listed as Groups IA and IB do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: All the two groups are directed to a method useful in the field of plasma polymerization, but each group has different special technical feature. Group IA has a special technical feature directed to the plasma polymerization of a metal surface not required by Group IB. Group IB has a special technical feature directed to the plasma polymerization of a surface of an insulating material not required by Group IA.

Art Unit: 1741

5. A telephone call was made to Attorney M. Moskowitz on 08/15/01 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kishor Mayekar whose telephone number is (703) 308-0477. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 5:00 PM.

Art Unit: 1741

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathryn Gorgos, can be reached on (703) 308-3328. The fax phone number for this Group is (703) 305-3599.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0661.
